YSoft SafeQ
Terminal UltraLight

YSOFT SAFEQ®

Making the MFPs think...

Terminal UltraLight is for small and medium-sized organizations that require secure printing or that need the ability to account for prints, copies, and scans.

Two versions of the terminal are available: "Print & Copy" and "Print." The Print and Copy terminal enables users to perform print and copy operations, while the Print terminal is for use where authentication is needed only for printing.

Main benefits of product

- Cost effective
- Easy to use — no training required
- PIN/card readers supported
- Modern look and feel
- Small size
- Mounts directly on MFPs

User authentication and authorization

- Identification, authentication, and personalized access to MFPs and network printers
- PIN keyboard (matrix 3×4)
- Standalone operation on network

Quick job output

- Compact, durable terminal — long lifespan
- Compatible with most MFDs and network printers—more than 680 devices
- Localization not required
- Support for all worldwide power supplies
- 2 big LED buttons: Print, Copy
- 4 status LEDs: Power, Ready, Working, Error
- 2-port switch for connecting other devices

Usage of your organization's existing ID cards

- More than 10 standard card readers embedded in the terminal
- Small Universal Mounting kit for attaching terminal to MFD
- Hardware MFP panel locking
